

## PW Solvent 230FR

*High quality textile banner for in- and outdoor use*

---

### Description:

Polyester based banner textile of 230 g/m<sup>2</sup>. This banner textile can be used for indoor and outdoor applications. After printing with solvent inks the material becomes water repellent. When you double fold the material you can grommet and stitch the fabric. Excellent for outdoor banner applications but also intensively used in all kinds of displays.

---
